

NEW MARKET REPORT FROM IRL

The West European Market for Industrial Wood Coatings

Publication: December 2000

Price: US\$1,875

Building on the 1998 edition of IRL's European industrial wood coatings market report, when the market was estimated to be at 470,000 tonnes, this updated version also documents factors and issues affecting the industrial wood coatings industry, as well as those trends which dictate the fortunes of its end-use markets.

Included in the publication is a review of many of the key technologies and approaches that are under development by those active in or supplying to the sector.

Markets are analysed according to the main chemical technologies associated with the sector, such as UV-curing, polyurethanes, water-based coatings etc. and according to companies on the basis of perceived market share.

The scope of the study is confined to Western Europe and includes the following countries:

- Austria
- Belgium/Luxembourg
- Denmark
- Finland
- France
- Germany
- Greece
- Ireland
- Italy
- Netherlands
- Norway
- Portugal
- Spain
- Sweden
- Switzerland
- UK

This report will be invaluable to anyone in the industrial wood coatings industry, whether in planning, marketing or business intelligence, or to their counterparts from the raw materials sector.
